

**When I was little, my favorite
place to walk was to the park.
We would go across the street,**

Past the rounded rock,

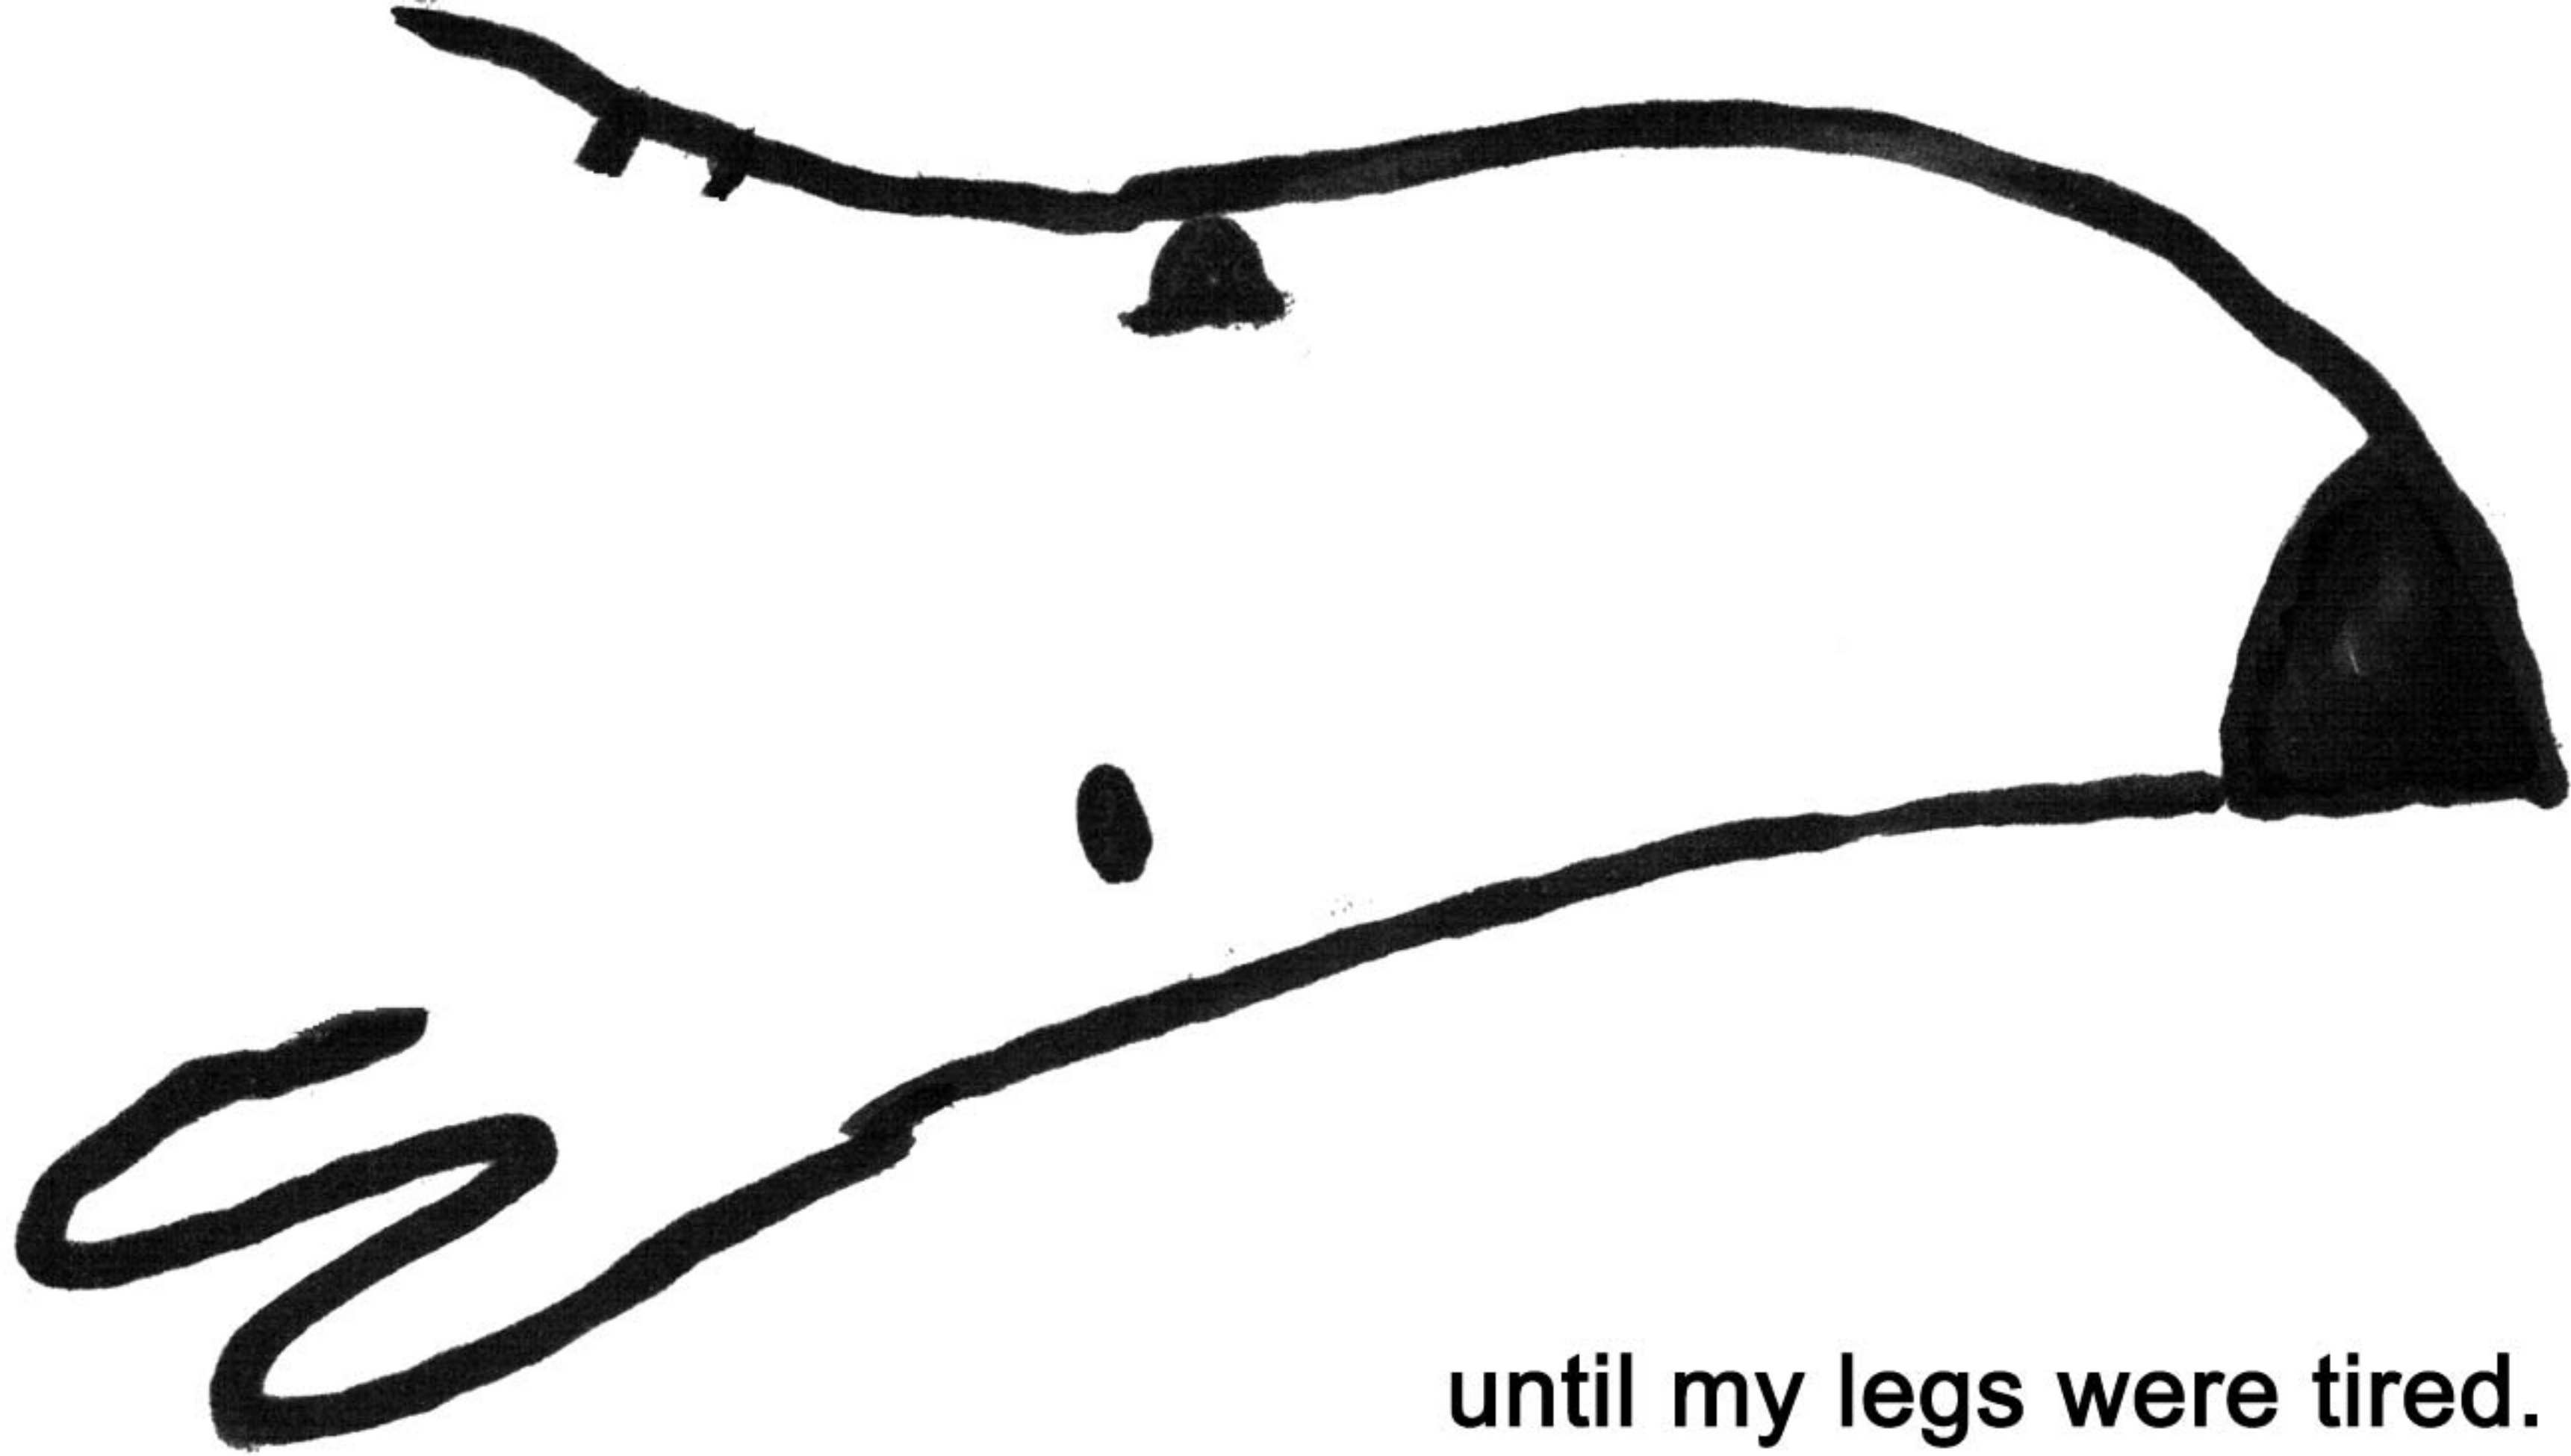

and down the hill.

Sometimes we skipped around the pond, but only on days that we had time!

Then we ran straight past the big hole

until my legs were tired.

My favorite thing at the park was the slide.

**But I never walked alone.
I always walked with someone.
Whom did I walk with?**
